EDUCATION

Bachelor of Technology (B. Tech.) | Lovely Professional University – Punjab, India

· *Major* – Computer Engineering   *Relevant Coursework* – OOP, Data Structures, DBMS, Computer Networks,
· *Cum. GPA* – 7.62/10 Web Development, Software Engineering · *Graduation* – Jun 2019 – July 2023

SKILLS

· *Languages* – C, C++, HTML, CSS, JavaScript, React.js, Node.js, Express.js, SQL
· *Tools & Technologies* –Git, GitHub, Figma, Vscode, Docker, Linux, MongoDB, Postman
· *Libraries/Framework -* React.js, Chakra-UI, Material-UI, sass/scss, Redux, styled-components, chart.js
· *Databases –* MongoDB

WORK EXPERIENCE

GoGroup – Frontend Engineer   June 2022 – Present

· Designed and Implemented web application along with dashboards UI Enhancements. Added reusable
components using react/redux and sass for better User Experience across all the products.
· Revamped the entire landing page for better navigation and improved SEO for the product.
· Daily maintenance of code, debugging issues, and solving clients' problems.

Disecto Technologies – Frontend Intern   July 2021 – June 2022

· I was responsible for the development of data anonymization application/classification from the scratch and
improving user experience and scaling up the development rate.
· Built 2fa using jwt with added privacy preservation for the application and was frequently involved in team
meetings to propose new solutions.
· Utilized HTML/CSS, JavaScript, React.js, Redux, Chart.js, Chakra-UI, Figma, Git, Postman.

PROJECTS

Bhumio Sync (Link)   June 2023 – Present

· Built an app using React.js where users can upload or use sample CSV data to parse and view it in the form of a
table, and perform multiple operations such as search, delete, edit, and persist data throughout the session.
· After performing operations users can download updated csv and view it in form of Bar chart as well.
· Users can experience a visually appealing UI as I utilized PrimeReact and Chart.js components.

Akash's E-Store (Link)   Sep 2022 – Dec 2022

· Built an e-commerce store using react.js. Users can navigate through the list of items that are present in the
 UI and can perform multiple operations like adding item to the cart and delete and updating items.

MyBillBook Flobiz (Link)   April 2022 –Aug 2022

· Bult an app in which users can interact with Landing page to log in it will take them to the items page where
 they can Add/Create/Edit and search items using the form and show them in the form of a table.
 · Note -> Users can't see item page without login as protected routes is implemented here.

Marquee Octo (Link)   Jan 2022 – Jan 2022

· Created a basic app where users can perform CRUD operation for task & subtasks.
· Context API is being used for auth and data storage.

EXTRACURRICULAR ACHIEVEMENTS

· Got certificates for Frontend Challenges in React and JavaScript via Hacker Rank and GeeksForGeeks Platform.
· **4** Online Courses – Frontend Development Using react.js, JavaScript, Node.js, Express.js and Sass/Scss.
