EDUCATION

Bachelor of Technology in Computer Science, *Lovely professional university* **July 2019 – July 2023**

Relevant Coursework - Web Development, OOP, Data Structures, DBMS, Computer Networks **CGPA: 7.62/10**

SKILLS

Languages – C, C++, HTML, CSS, JavaScript, React.js, Express.js

Tools & Technologies – Git, GitHub, Figma, Docker, Linux, MongoDB, Postman

Libraries/Framework - React.js, Next.js, Node.js, Shadcn, Tailwind CSS, Sass, Redux, styled-components, chart.js, Framer-motion, storybook, Zod and Typescript.

Database – MongoDB, PostgreSQL

WORK EXPERIENCE

GoGroup – Frontend Engineer **June 2022 - present**

Trustspace Team

- Designed and implemented scalable dashboard and reusable UI components using React (Hooks, Redux), and Sass, improving developer efficiency and reducing code duplication by **25%**.
- Revamped landing page by implementing lazy loading, code splitting, and performance optimizations, increasing Lighthouse performance score by **18%** and reducing page load time by **2.5s**.
- Collaborated with backend and design teams to deliver responsive, cross-browser-compatible interfaces, improving user engagement and reducing reported UI issues by **40%**.

Wandel Team

- Built customer-facing website, admin dashboard, and employer portal from scratch using React, Next.js, and TypeScript, supporting onboarding of **1,400+** users within 3 months.
- Implemented pixel-perfect UI designs, new feature rollouts, and performance optimizations, while resolving **60+** staging/production issues, reducing bug backlog by **35%**.

Disecto Technologies – Frontend Developer (Internship) **July 2021 – June 2022**

- Built a data anonymization and classification platform using React, enabling processing of **800+** records securely and reducing manual data handling time by **20%**.
- Collaborated in an Agile team, delivering features consistently across applications with **20+** successful code reviews.

PROJECTS

Nxt-Cl Link Storybook **Jan 2024 – Oct 2024**

- Developed frontend **npm package** with Babel + Webpack to explore library design, Storybook documentation, and modular components.
- Configured CI/CD using GitHub Actions with Semantic Release, automating builds, versioning, publishing, reducing manual release effort by **90%**.

Bhumio Sync Link **June 2023 – Sep-2023**

- Developed a React.js app for uploading and editing CSV data, with table view, search, session-persistent CRUD operations, and downloadable updates.
- Utilized Prime React for UI and Chart.js for bar chart visualizations allowing user to analyze **400+** records.

Ubiquitous Akash Link **April 2023 –Aug 2023**

- Designed personal portfolio using Next.js, TypeScript, and Framer Motion for seamless animated transitions.
- Implemented state management and dark mode using Context API to enhance user experience.

Akash's E-Store Link **Sep 2022 – Dec 2022**

- Developed a responsive React.js e-commerce store with real-time cart management and product updates, and can support 50+ products using sanity.
- Used Sanity.io for image/content management and deployed on Vercel, achieving < 1s load times on mobile.

EXTRACURRICULAR ACHIEVEMENTS & CERTIFICATES

- Earned certification for Frontend Challenges in React and JavaScript via Hacker Rank Platform.
- **12+** Online Courses – In Frontend Development, react.js, JavaScript, Node.js + Express.js, Nest.js, Docker and more
- Volunteered at **3+** community events/workshops, enhancing public speaking and leadership skills.
